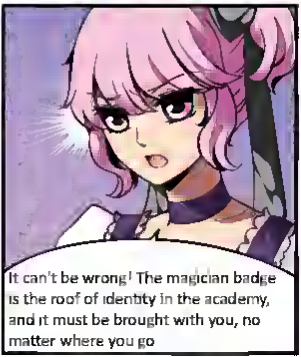
Leaving without a word

You're saying that--
Comocky and Iku disappeared?
Yeah, we had not seen them since after yesterday's gathering!
We did go to their dormitories, but the result...
Only discovering that their magician bodges was left behind.

This...
I think they just simply forgot to bring their badges when they went out.
You can go back first, I'll handle this.
Okay, Miss Aisela.
Salaman!
Just what is going on?!
Why did Cornocky and Iku leave without a word?
Even leaving behind their magician badges, this would mean that...

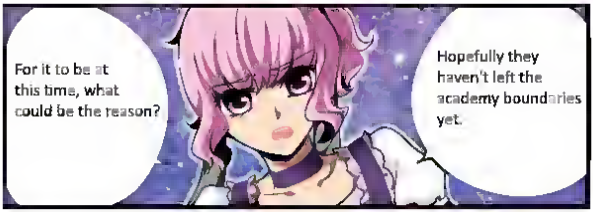
They had given up their futures as magicians.

Could there have been a mistake somewhere? or maybe they really simply forgot to bring their badges



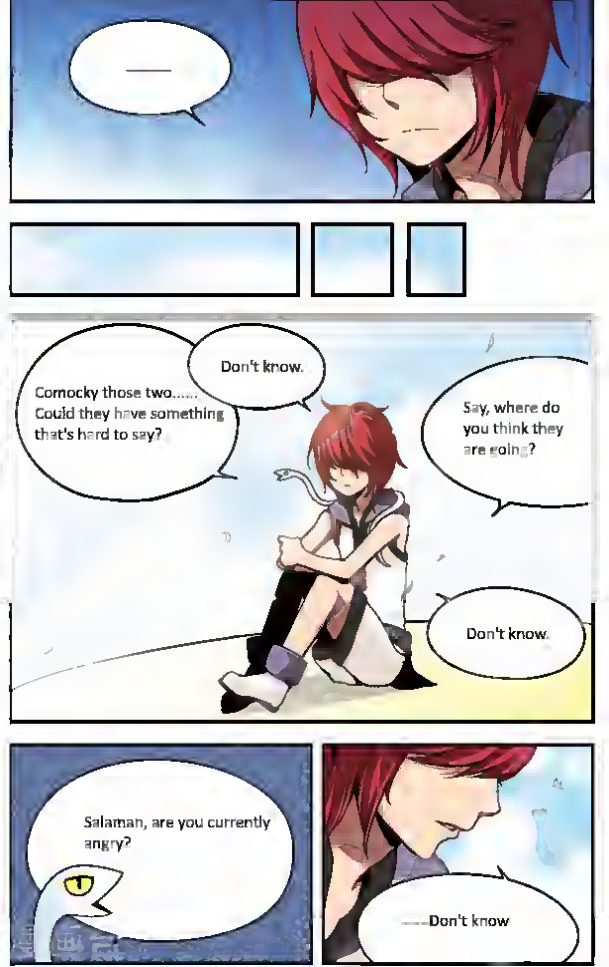
It can't be wrong! The magician badge is the roof of identity in the academy, and it must be brought with you, no matter where you go

This is a important item that we are supposed to keep with us until graduation
And has to be right now during the holidays, where the teachers won't immediate find out about their disappearance
They must have planned this leave...how hateful!



For it to be at this time, what could be the reason?
Hopefully they haven't left the academy boundaries yet.

Anyways Xiao Zi, you should go immediately to search within the academy
Okay!
Salaman, why don't you say something?
They are your best friends!



——
Don't know.
Comocky those two..... Could they have something that's hard to say?
Say, where do you think they are going?
Don't know.
Salaman, are you currently angry?
——Don't know

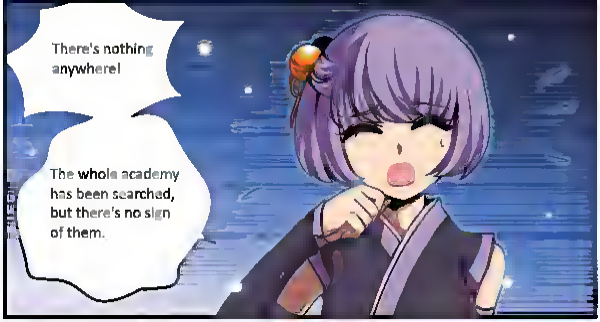
.....

Hey, Safaman.
If I also suddenly dissappeared, what would you do?

I would be able to find you
No matter where you go

Even if I'm not willing to tell you, the reason I leave?

Then why are you still wasting time?
Every friend, even if they are angry.....
They wouldn't be able to just dump everything and not care.
No matter whatever the reason is, it's not important. They just wouldn't be able to stop worrying.
Go, go and get them back.



There's nothing anywhere!
The whole academy has been searched, but there's no sign of them.

Certainly, they have already left the academy's boundaries.
We must tell this to the teacher

Wait, Xiao Ai
If we tell this to teacher, the result would be---!

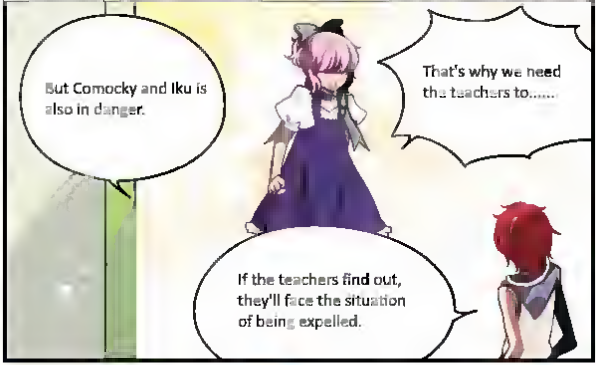
But even if we don't tell, we won't be able to hide this for long!
After another seven days, when the sage gathering is over, and the classes return to normal------
Their disappearance would be immediately found out!

Then we'll get them back before that happens.

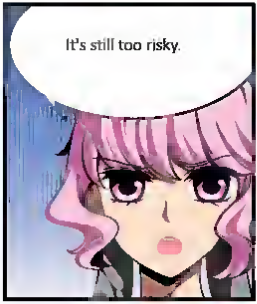
Get them back?
What do you mean?

There's still seven days of time before the sage gathering ends,
We can go outside the academy to find them.

Leaving the academy?! That's too dangerous!



But Comocky and Iku is also in danger.
That's why we need the teachers to.....
If the teachers find out, they'll face the situation of being expelled.



It's still too risky.

It's fine, there's me here.
You being here, is what makes me even more worried!

Don't worry.
I won't let them disappear so easily.

Translator's Note: I'm Nevn, and currently translating this series because the updates was too slow, which I really enjoy this series and want people to be able to read it.

I would like to apologize to the group that was translating this, for taking up the project without notice. I know you guys were probably just busy, but I could no longer bear to see this series not being updated.

To the people anticipating more, don't worry as I'll be actively uploading more of this series every other day (maybe even daily). So please stay tuned.

Finally here are some name changes for my translations compared to previous group's translation.

From Asura to Aisela
From Xiao Phoo to Xiao Fu
